

BM

WALL PLATFORM
WITH TWO
WEIGHING SYSTEMS

- Hanging the different pieces of meal on the hook.
- Small pieces can be weighed with no need of folding the plate while the big pieces need folding the plate.
- Weighing by putting the items on the plate.
- This type of weighing allows the weighing of different products directly on the plate, acting like a common mono cell scale. The plate has a surface of 500x500 mm.

TECHNICAL FEATURES

Type	Wall weighing platform/hook.
Finished	Polish stainless steel
Thickness of the sheet	1,2 mm
Installation	Mural fixation with folding plate
Plat dimensions	500 x 500 mm
Capacities	From 150 to 300 kg
Height of Hook	1150 mm (on the level of the plate)
Cable length	5m

OPTIONALS

POSSIBLES INDICATORS

GI400 | GI400i | GI410i

OPTIONAL INDICATOR

» SERIE GI400-GI400i-GI410
See page 58

SOFTWARE

» For the management and control of production lines
See page 65

LOAD CELLS

G4M

Stainless steel building
3000 divisions OIML R60
Hermetically sealed, fully in welded
Protection IP68
