

# GLM-1000

## Automatic side or top labeller

DESIGNED FOR SEAMLESS INTEGRATION INTO  
INDUSTRIAL LINES, ENSURING PRECISION,  
SPEED AND CONNECTIVITY

# GIROPES

## GLM-1000

LABEL APPLICATOR

**Automatic label applicator for cylindrical containers, with self-adhesive label application on one side.**  
**Offers precision and speed of up to 70 containers/minute, ideal for demanding production lines.**

### TECHNICAL SPECIFICATIONS

<b>Type of container</b>	Cylindrical
<b>Type of label</b>	Self-adhesive
<b>Label application</b>	One label on one side
<b>Working speed</b>	Up to 70 units per minute
<b>Label dimensions (max.)</b>	Height: 190 mm   Length: 315 mm
<b>Container dimensions</b>	Ø 25 mm to Ø 100 mm
<b>Equipment dimensions</b>	2000 mm x 750 mm x 1600 mm
<b>Equipment weight</b>	120 kg
<b>Power supply</b>	220 V / 50-60 Hz

### LABELLING SYSTEM AND STRUCTURE

<b>Material and structure</b>	Stainless steel and high-strength materials
<b>Screen</b>	LCD
<b>Applicator head</b>	With height adjustment column
<b>Platen</b>	Rotator with side wall
<b>Container conveyor</b>	1800 mm x 110 mm
<b>End-of-line tray</b>	Yes
<b>Bench table</b>	Stainless steel
<b>Electrical control panel</b>	Yes, centralized for adjustments and operation

### MAIN FEATURES

- » Fast and precise labelling.
- » **COMPATIBLE** with cylindrical containers from Ø 25 to 100 mm.
- » **ADJUSTABLE HEAD** and integrated conveyor.
- » Robust design in stainless steel.
- » **PRINTING OPTION**, sensors and labelling for special containers.

### OPTIONS

<b>Supports for conical containers</b>	Allows labelling on specially shaped containers
<b>Horseshoe sensor</b>	For detecting transparent labels
<b>Belt conveyor</b>	Facilitates efficient movement of containers
<b>Feeding table</b>	Optimizes product loading on the line
