Sausage weighing scale

HYGIENIC WEIGHING
SOLUTION TO MONITOR
SHRINKAGE DURING
DRYING PROCESSES

APPROVED OIML

AUTHORIZED FOR USE IN LEGAL OR COMMERCIAL ACTIVITIES

Sausage weighing scale to monitor weight loss during the drying process, ensuring precise control of dehydration and the optimal point of the product.

SPECIFICATIONS

FEATURES

Type	Single cell scale for weighing sausages
Use	Suitable for legal metrology
Material	304 stainless steel
Bar diameter	Up to Ø25 mm
Installation	Above ground
Dimensions	1,520 mm (height) x 620 mm (width) x 570 mm (depth) - Height to hook 1,400 mm - Between hooks 530 mm
Capacities	3 kg, 6 kg, 15 kg and 30 kg
Support	2 wheels and two adjustable feet
Cable length	2 m
Screws	In stainless steel

CELL CHARACTERISTICS

Load cell model	IBM
Cell material	Stainless steel
Protection	IP67

INDICATOR

FEATURES

GI400i model indicator in stainless steel.

- » IP68 protection (optional IP69K).
- » LCD screen with up to 8 different colors (checkweigher function), with 6 digits of 40 mm. Backlight function: on/off/auto.
- » Units kg.
- » CE certification (optional).
- » Approval for 3000 divisions OIML class III.
- » Single range, multi-range or multi-interval ($n \leq 3000$, per partial weighing range).

GI410i LCD IP69K indicator (optional)

Machine prepared to hang sausage bar (not included)

APPLICATION/HIGHLIGHT

- » **HYGIENIC** stainless steel design and high precision, making it the ideal tool for weight loss control, ensuring final product quality and optimizing each production batch through Giscale, using periodic sampling.
- » **TRACEABILITY AND CONTROL** via Ethernet/Wi-Fi connectivity (optional).
- » **USE** in cutting rooms, workshops, and industrial kitchens.
